FOURTH SYMPOSIUM ON AMERICAN REVOLUTION HELD AT LIBRARY ON MAY 8 AND 9

More than 600 persons came to the Library of Congress on Thursday and Friday, May 8 and 9, to hear distinguished historians, eight of them from abroad, speak and comment on "The Impact of the American Revolution Abroad." The fourth in the Library of Congress series on the American Revolution, the symposium this year was held in cooperation with the U.S. Department of State and planned by the American Revolution Bicentennial Office, under the direction of Mrs. Elizabeth Hamer Kegan, Assistant Librarian of Congress, in consultation with the Library's advisory committee.

After a welcome by Mrs. Kegan, Chairman of the symposium Richard B. Morris, Gouverneur Morris Professor of History Emeritus of Columbia University, introduced the first speaker on the symposium theme, Robert R. Palmer of Yale University. Professor Palmer set the stage for the later speakers by defining the American revolution as the opening gun of a revolutionary movement that in the next 30 years was to sweep through the world of Western civilization. The impact of the Revolution was most evident in the realm of ideas; its effects could be felt, first in Europe, then in Latin America, and in Africa and Asia at the end of the 19th century. A number of comments were made from the floor following the Palmer paper; the need for a definitive guide to the European newspapers of the Revolutionary era was mentioned in particular.

The first speaker in the afternoon session, Claude Fohlen, of the University of Paris-Sorbonne, dealt with the tremendous impact of the American Revolution on France. Although Professor Fohlen, who occupies the chair of American Studies at the Sorbonne, rejects as unsubstantiated the idea that the American War of Independence was the mother of the French Revolution, he claims that "what they learned from the Americans was the possibility of constituting a government 'through the principle of the people as a constituent power.' . . . For most of the Frenchmen, whatever their political opinions, the United States became the ideal state."

APPROPRIATIONS BILL FOR 1976 FOR LIBRARY SENT TO HOUSE

The Committee on Appropriations of the House of Representatives reported (House Report 94-208) on May 13 H. R. 6950, a bill making appropriations for the Legislative Branch for fiscal year 1976. Included in this bill is a recommendation for an appropriation of $115,134,800 for the operation of the Library of Congress and $28,769,000 for the transition period for July to September 30, 1976. (Beginning October 1976, the new fiscal year will run from October 1 to September 30.) The allowance for 1976 is

$4,580,000 below the amount requested and $16,144,800 above appropriations for fiscal 1975.

Under the Appropriation, "Salaries and Expenses," which supports the Library's basic operations, including the Office of the Librarian, the Law Library, and the Administrative, Processing, and Reference Departments, an appropriation of $57,096,000 is recommended. An allowance of $14,838,500 for the transition period was approved. The 1976 recommendation is $1,579,000 less than requested and $7,071,000 above the current funding level. The request was for 140 new positions; the Committee approved funds for 46, of which 20 are for the Processing Department, three for the Reference Department, and 23 for the Administrative Department. Under this appropriation an increase of $349,500 was allowed for the preservation of library materials, and $4,383,543 additional was allowed for non-personal services, the bulk of which is for payment to the General Services Administration for the rental of space. The request for $39,000 additional for training under the Affirmative Action Program was approved, making the total available $59,000. The increased funds requested for the National Program for Acquisitions and Cataloging were not allowed.

Under appropriations for the Copyright Office, a total of $6,753,500 was recommended for fiscal 1976 and $1,768,000 for the transition period. The Committee approved the request for 31 new positions including four to plan an orderly transition in anticipation of the passage of the copyright revision bill. The Committee did not approve the request for $200,000 for consulting and management planning to implement a revision of the copyright law in advance of enactment.

The Committee deferred action on the requested appropriation for the National Commission on New Technological Uses of Copyrighted Works until such time as members of the Commission have been appointed and a program developed.

For salaries and expenses for the Congressional Research Service, a total of $16,136,700 is recommended for fiscal 1976 and $4,286,300 was provided for the transition period. The allowance for 1976 is $1,673,300 less than requested and $2,414,700 above the 1975 amount. Of the 157 positions requested, the Committee approved 50. *(Continued on p. 210)*

LIBRARY NOTES ANNIVERSARY OF JEFFERSON PAPERS

As the Library of Congress reflects on its 175-year history, it is appropriate for the institution, whose existence and character are in no small measure due to Thomas Jefferson, to note an anniversary with ties to its early benefactor. May 19 marked the 25th anniversary of the publication of the first volume of *The Papers of Thomas Jefferson*, published by the Princeton University Press under the editorship of Julian Boyd, Lyman Butterfield, and Mina Bryan.

In ceremonies held in the Library on May 17, 1950, the first copy of the *Papers*, Volume 1, 1760-1776, was presented to President Harry Truman by representatives of the university. [See May 22, 1950 LC *Information Bulletin*, p. 3, for complete story of the ceremony.] The Library was host for the ceremony because the Jefferson Papers are in the custody of the Library's Manuscript Division, and its staff had assisted in the preparation of the publication. To date, 19 volumes of the publication have been produced.

SAVINGS BOND CAMPAIGN LAUNCHED AT LIBRARY

During the month of May the Library of Congress will join other Federal agencies in the 1975 Savings Bond Campaign "Take Stock in America." The goals of the Library's 1975 campaign are to increase

by at least 10 percent the number of LC employees who buy bonds, to invite all present bond buyers to increase their allotments to purchase higher denomination bonds, and to establish a strong sustaining program to increase employee participation throughout the year.

The 1975 campaign will be conducted under the direction of Campaign Chairman Lloyd W. Shipley, Head of the Resources Analysis Section, Science and Technology Division. Mr. Shipley is shown here, at left, at the recent Savings Bond Campaign kickoff as he was greeted by Francine Neff, Treasurer of the United States, Earl L. Butz, Secretary of Agriculture and Chairman of the Interdepartmental Savings Bond Campaign Committee, and William Conrad, star of the television series "Cannon."

Throughout the month of May department and division chairpersons and keyworkers who have agreed to serve in the campaign will visit staff members to provide information about the program and to assist in completing authorization forms. Mr. Shipley will be assisted by Department Chairpersons Mary Ann Adams, Office of the Librarian; Prentiss Gillespie, Administrative Department; Tom Miller, Congressional Research Service; Harold Boyd, Copyright Office; Edward Sourian, Law Library; Kathleen Christensen, Processing Department; and Bernard Bernier, Jr., Reference Department.

MARC DISTRIBUTION SERVICE—IN PROCESS MATERIALS SET FOR '75

The MARC Distribution Service—In Process Materials will be offered for sale later in the calendar year 1975. This service will contain records emanating from the Library of Congress Automated Process Information File system, which will represent the preliminary descriptive cataloging information as captured at the point of initial creation.

The records will contain the description of the work, a preliminary main entry (both choice and form of entry may subsequently be changed), and the Library of Congress card number. Records will be distributed, probably weekly, as a separate file distinguished from full MARC records by encoding level, and will not be updated. A subset of the MARC format for books will be used.

Initially, coverage will be limited to English language books processed by the Descriptive Cataloging Division, with subsequent expansion to other languages and to books processed by the Shared Cataloging Division. Cataloging in Publication records will be excluded as they are already being distributed in the MARC Distribution Service—BFMS (Books, Films, Maps, Serials, formerly MARC Complete); Books (All); and Books (English). While serials, films, maps, music, and phonorecords are not presently included in this service, some of these materials may be added at a later date.

It is anticipated that these records will be useful to subscribers for selection and ordering, and also for alerting them to forthcoming MARC records, to the extent that records are within the scope of MARC.

While the exact date of the commencement of the service, its frequency, its price, and the estimated number of records to be distributed have not been set, expressions of interest in this new service may be sent to the Cataloging Distribution Service Division, Library of Congress, Building 159, Navy Yard Annex, Washington, D.C. 20541. Information about the service will be announced as available in the *Information Bulletin.*

FOURTH AMERICAN REVOLUTION SYMPOSIUM HELD AT LIBRARY

(Continued from p. 205)

Dutch historian J. W. Schulte Nordholt of the State University of Leiden, who followed Professor Fohlen, described the efforts of John Adams to gain recognition first for his mission and then for his country in his paper, "The Impact of the American Revolution on the Dutch Republic." Patriots interested in changing the Dutch government looked to America for models and there was intense interest in the American war and in the new constitutions and theories of representation after independence. But in the end it was the French, not the American, Revolution that served as the model for the Dutch and it would be a long time, concluded the speaker, before the Dutch people would again "bless the ties that bound them to America and tune in to the voice of liberty coming from the West."

A reception Thursday evening in the Diplomatic Reception Rooms of the Department of State provided an intermission in which speakers and registrants could meet Government officials and members of the diplomatic corps. Receiving the guests were Mrs. Kegan and her husband, Mr. Lawrence Kegan, and the Assistant Secretary of State for Educational and Cultural Affairs, John Richardson, Jr.

J. H. Plumb, professor of Modern English History at Christ's College, Cambridge, made his second appearance under Library auspices on Friday, May 9, when he discussed "The Impact of the American Revolution on Great Britain." In 1972 Professor Plumb had served as a commentator in the first of the symposia series. He spoke this year of the Revolution as "one of the great turning points in [Britain's] history. It helped very greatly to consolidate a new focus of empire and an empire that was markedly different to that which had gone before." He explored in depth the influence of the Revolution on the reform of Parliament, particularly the correction of problems of representation, and the impact on Ireland, so that "throughout the 19th century the most bitter, violent, and desperate elements of Irish politics could always look across the Atlantic for help in money or in arms, or both."

The Friday morning session concluded with a paper on "The Impact of the American Revolution on the Russian Empire," by N. N. Bolkhovitinov of the Institute of General History, Academy of Sciences of the U.S.S.R. The speaker, who is the author of *The Beginnings of Russian-American Relations, 1775-1815* and *Russian-American Relations, 1815-1832,* noted especially the influence of the Revolution on Russian thinkers, not only those who were contemporary but even in the 19th century; the Decembrists, for example, did not admire the work of Washington and Franklin in a purely speculative way but considered it to be the groundwork of their own revolutionary activity.

Mario Rodríguez told the audience at the afternoon session on Friday that the ripple effects from colonial America's struggle to rid herself of British rule were profoundly felt throughout the Spanish and Portuguese-speaking world. Professor Rodríguez, who teaches Latin American history at the University of Southern California, said that writers and intellectuals in this area envisioned the American experiment as a blueprint to be emulated in Spain and Portugal themselves. Those in the colonies felt a special kinship and promoted the writings of revolutionary figures like Paine to spread the word among the southern Americas that emancipation was a theme whose time had come.

The last speaker, Owen Dudley Edwards of the University of Edinburgh, spoke of the response of the "many Irelands of 1775" to the American Revolution, of the Protestant fears of loss of their land through a weak crown, of the loyalty of Catholic Ireland to that crown, of the Scotch-Irish, who emigrated in great numbers to America and may have influenced it more than it Ireland, and the republicans affected by both the American and the French Revolutions.

The symposium also heard three commentators who had been invited to participate, Erich Angermann, Professor of History at the University of Cologne and Director of the Anglo-American Studies Program; Nagayo Homma, Associate Professor of History at the University of Tokyo; and Ignacio Rubio Mañe, Archivist of Mexico and member of the Pan American Institute of Geography and History. L. Edward Brathwaite, Lecturer in History at the University of the West Indies, was prevented by illness from taking part.

The symposium series is made possible by a grant from The Morris and Gwendolyn Cafritz Foundation of Washington, D.C., which also supports the publication of papers presented at each symposium as a permanent contribution to the better understanding of the American Revolution. Already published are *Development of a Revolutionary Mentality, Fundamental Testaments of the American Revolution,* and *Leadership in the American Revolution.* The 1975 symposium papers will be published as a volume in this series.

Symposium speakers and participants are pictured from left to right in photographs arranged clockwise, beginning at the top left.

Messrs. Fohlen, Rubio Mañe, and Rodríguez.

Jack P. Greene, Professor of History at The Johns Hopkins University and member of the LC Advisory Committee on the American Revolution Bicentennial Program, and Mr. Edwards.

Mr. Schulte Nordholt.

Cecelia M. Kenyon, Charles N. Clark Professor of Government at Smith College and member of the LC Advisory Committee, and Professor and Mrs. Morris.

Professor Palmer and Mrs. Kegan.

Mr. Bolkovitinov.

Center: Messrs. Plumb and Angermann.

LC EXHIBIT A GARDEN OF EARTHLY DELIGHTS

A colorful exhibit featuring books on organic gardening, edible wild plants, herbs, and area wildflowers has been assembled by the Science and Technology Division in the Fifth Floor foyer of the Annex Building, where it will remain on view through August 31.

Displayed in five showcases are materials from the Library's collections containing information of interest to the Washington D.C. area do-it-yourself gardener and/or outdoor enthusiast. Yarn attachments draw attention to those books in the exhibit listed in the three featured *LC Science Tracer Bullet* titles: *Herbs and Herb Gardening, Edible Wild Plants,* and *Organic Gardening.* The *LC Science Tracer Bullet* publication series offers reference aid on topics of current interest prepared and distributed free on request by the Science and Technology Division.

Bradford Angier's *Feasting Free on Wild Edibles,* Euell Gibbons' *Stalking the Wild Asparagus,* and James Johnson's *Anyone Can Live Off the Land* provide information on the identification, harvesting, and preparation of wild plants for the table. Recipes for alfalfa tea, wild onion soup, batter-fried milkweed pods, day lily zucchini, and wild strawberry crêpes from Jock Tobin's *A Taste of the Wild,* accompanied by Merrily Johnson's charming illustrations, add flavor to the case devoted to edible wild plants.

Books on display of special interest to Washington area gardeners are the *Washington Star-News Garden Book, Successful Gardening in the Greater Washington Area,* issued by the Men's Garden Club of Montgomery County, and the U.S. Department of Agriculture's *Growing Vegetables in the Home Garden.* The latter is available from the Superintendent of Documents (GPO) for 80 cents. Books included in the *LC Science Tracer Bullet: Organic Gardening,* such as Beatrice Trum's *Gardening Without Poisons* and the Rodale Press' *The Organic Way to Mulching,* provide information on methods for raising plants without the use of artificial chemical materials, either as fertilizers or as pesticides.

The exhibit case devoted to herbs and herb gardening includes information on how to dry or freeze homegrown herbs, suggestions for making your own herb butter and for perking up chicken or turkey with herb preparations, as well as selected books referenced in the *LC Science Tracer Bullet: Herbs and Herb Gardening,* such as Gertrude Foster's *Herbs For Every Garden* and Sunset's *How to Grow Herbs.*

Wildflower portraits and information on poisonous plants, such as poison ivy, poison oak, and the water hemlock are also included in the exhibit. Copies of the *LC Science Tracer Bullets,* a list of agricultural extension services offering gardening advice in the Washington D.C. area, and a GPO price list of pamphlets dealing with the home gardening of fruits and vegetables are available in the adjacent Science Reading Room.

1976 LC APPROPRIATIONS BILL SENT TO HOUSE

(Continued from p. 206)

For the appropriation, "Distribution of Catalog Cards," the Committee recommended an appropriation of $11,285,000 for fiscal 1976 and $2,971,500 for the transition period.

The Committee approved the request for $1,695,000 for Books for the General Collections and $456,000 for the transition period. The allowance for 1976 includes an increase of $237,000 under this appropriation.

The Committee concurred in the request for $251,000 for Books for the Law Library—an increase of $22,000 above the 1975 level. The sum of $75,000 was provided for the transition period.

For the operation of the Books for the Blind and Physically Handicapped Program for fiscal 1976, a total of $15,813,000 was recommended and $3,728,000 was approved for the transition period. The Committee reduced the requested increases for "Other Services" by $119,000 with the reduction applying to the requests for Multi-State Centers (-$25,000), national bibliographic service (-$43,500), tuition and planning (-$1,500), and research and development (-$49,000).

The Committee recommended approval of the 1976 request for $2,014,100 for the Collection and Distribution of Library Materials (P.L. 480 Program) and $498,000 for the transition period.

For furniture and furnishings for the Library of Congress, a total of $4,056,500 was recommended, including a reappropriation of $20,000 and $3,136,000 for the initial outfitting of the James Madison Memorial Building. Funds recommended for the transition year were $138,700, including $58,000 for the Madison Building.

For the revision of the *Annotated Constitution,* an appropriation of $34,000 was recommended and $9,000 was provided for the transition period.

The Committee retained a limitation on expenses

of Attendance at Meetings, but has increased the amount from $57,500 in effect for fiscal 1975 to $75,000 for fiscal year 1976.

Under funds for the Architect of the Capital, the Committee approved $2,120,000, including a reappropriation of $70,000, for the care and improvement of the Library of Congress buildings during fiscal year 1976.

The bill now goes to the U.S. House of Representatives.

FOREIGN ACQUISITIONS MACHINERY PROVIDED BY IMPAC

For nearly 30 years, beginning just after the end of World War II, the Library of Congress has been involved in a cooperative procurement program with foreign countries to assure that important library materials can be transferred among countries. During the war, these transfers were severely disrupted. Among the items difficult to obtain were cartographic materials, then urgently needed by the U.S. Government.

Recognizing the need, the Library of Congress and the U.S. Department of State embarked on a mission to restore contacts with cartographic publishers throughout the world. Geographic attachés were assigned to a number of diplomatic posts to establish informal map exchange agreements in most foreign countries.

From this evolved the Interagency Map and Publications Acquisitions Committee (IMPAC), including the Library of Congress, the U.S. Department of State, the U.S. Geological Survey, the U.S. National Ocean Survey, the U.S. Defense Mapping Agency, the U.S. Department of Agriculture, and the U.S. Bureau of the Census.

IMPAC was established to coordinate the acquisition of foreign cartographic materials for all Federal map agencies through official Department of State channels. Its activities include on-the-spot purchases as well as exchanges. Over the years, the program has gone through many changes. A large percentage of its acquisitions are now carried out by staff members of the Department of State and other agencies based in Washington, D.C., traveling on short missions of a few weeks to one or more countries.

The Library provides IMPAC with a statement of its general requirements for foreign maps and atlases including scope and scale of coverage, subject matter, language content, and any special requirements. Each year a specified sum of money is deposited into the central fund controlled by the Department of State for use in supplying the Library's needs. During fiscal year 1974, IMPAC procured for the Library 68 atlases, 12,672 maps and 90 map-related publications. Since 1946, about 90 percent of the foreign cartographic materials in the Library have been acquired through IMPAC.

VISITORS TO LC

Foreign Library Representatives

Virginia Betancourt, newly appointed Director of the National Library of Caracas, Venezuela.

Margaret Brierley, a cataloger from Kuring-Gai College of Advanced Education, Sydney, Australia.

Three Russian experts including Rugero S. Giliarevskii, Deputy Director, VINITI (All-Union Institute for Scientific and Technical Information); Kim S. Losev, Chief, Geophysics Section, VINITI; and Yuri A. Utenkov, Deputy Chief, Export and Import Department, VAAP (USSR Copyright Agency). They were accompanied by Richard Newman of G. K. Hall and Co. of Boston.

G. G. van Wijk, Librarian, State Agricultural University, Wageningen, The Netherlands, with A. Rutgers, Director, PUDOC (Agricultural Publishing and Documentation Centre).

Paul Xuereb, Chief Librarian, Royal University of Malta, Valletta.

Dr. Bryan Niblett, Co-Director of the Centre for Law Computers and Communications, University of Kent, Canterbury, U.K., who visited the Copyright Office.

A group of 35 librarians and teachers from the Embassy of U.S.S.R. in Washington who came for a general tour and a visit to the Slavic and Central European Division.

A group of 30 students and faculty from the University of Toronto faculty of Library Science.

American Librarians and Library Science Students

Nancy Bogle and five librarians from the Serials Department, Johns Hopkins University Library, Baltimore, Md.

Mrs. Grace Davies, Acquisitions Librarian, Gannon College, Erie, Penn.

Mrs. Jean Davis and a colleague, Frederick County Public Libraries, Frederick, Md.

Sandra Gidney and a colleague, Pattee Library, Pennsylvania State University, University Park, Penn.

Mrs. Sheila Goldstein, Africana cataloger, Boston University, Boston, Mass.

Mrs. Marlyn Cook Pethe, reference librarian, University of Tampa, Tampa, Fla.

Janet M. Schmidle and eight graduate students from the School of Information and Library Studies, State University of New York at Buffalo.

A group of 35 graduate students from the Drexel Student Library Association, Drexel University, Philadelphia, Pa.

A group of eight library science students from East Carolina University, Greenville, N.C.

A group of 40 students and faculty from the Library Technical Assistance program, Oakland Community College, Farmington, Mich.

GPO JUSTIFIES PRICE INCREASES

On March 31 the Government Printing Office issued a statement to printing and publishing officials of the Federal Government in order to justify increases in prices of Government documents and to quell some of the furor aroused in both Government and private sectors by recent increases.

Historically, the GPO publication sales program has been self-sustaining, according to the statement. The cost of the program, including labor, material, and overhead incurred in printing, warehousing, and distribution, was to be borne by the users of the publications rather than by government subsidy through appropriations. "Since 1968 the Government Printing Office has experienced dramatic increases in the price of paper and in other elements of cost. Furthermore, as a result of the Postal Reorganization Act, the Government Printing Office, along with other Government agencies, now pays the same postage charges as unsubsidized private users will eventually pay rather than the substantially smaller charges previously assessed."

The statement concludes that price increases have been limited to those necessary to restore the GPO sales program to a self-sustaining basis, as required by Federal law.

STAFF NEWS

DEATH OF A FORMER STAFF MEMBER

Faustine Dennis, an employee of the Library of Congress from 1921 to 1950, died on May 8 in a Cranford, N.J., nursing home after a long illness. She was 86.

Miss Dennis began her Library career in the Order Division in 1921, and served subsequently in the Accessions Division, Exchange and Gift Division, and the Reading Rooms. In 1942 she was appointed Curator of the Microfilm Reading Room. [See the September 4, 1950 LC *Information Bulletin*, p. 8, for Miss Dennis' retirement story.]

A native of Ithaca, N.Y., she attended Vassar College and Cornell University and later studied fine arts in Boston and New York City. During World War I, she joined the American Red Cross and was attached to the army of occupation as head of hospital canteens. After the war she was active in auxiliary and veterans organizations, including the American Legion and the USO; and during World War II she resumed her Red Cross work as vice chairman of its Canteen Corps.

Miss Dennis was a member of the Daughters of the American Revolution, the American Library Association, and the Business and Professional Women's Club.

She is survived by a brother, Frank S., of North Arlington, N.J.

RETIREMENT

Martha A. Bugg, Buildings Management Office, Administrative Department, retired from the Library on May 9 after 20 years of Federal Service.

Mrs. Bugg was born in LaCrosse, Va., and worked in private industry before joining the Library staff in the Buildings Management Office (formerly Buildings and Grounds Division) in 1955. During her years of service at the Library, she became well known for her spirit of cooperation and friendly manner.

Mrs. Bugg was presented a purse at a retirement reception given by her co-workers and many friends.

AWARDS

Eilene M. Galloway, Senior Specialist in International Relations (National Security), Foreign Affairs Division, Congressional Research Service, was the recipient of a 35-year Federal Service Award pin presented to her on May 2 by CRS Director Lester S. Jayson.

Mrs. Galloway was born in Kansas City, Mo., and was educated at Swarthmore College, where she received a bachelor's degree in 1928. Elected to Phi Beta Kappa, she taught political science at Swarthmore for two years after graduation. She was Editor of *Student Service*, a current events paper, in 1931,

and from 1934 to 1935 she was a staff member with the Education Division of the Federal Emergency Relief Administration.

Following graduate training at American University, Mrs. Galloway joined the staff of the Library in 1941, becoming Assistant Chief of the Information Section in the war time Division of Special Information before her transfer to the Legislative Reference Service, as it was then called, in 1943. There she began to display the aptitude and talent for legislative research that have so consistently characterized her long and distinguished career with CRS. In 1947 she was named Editor of *Public Affairs Abstracts*, a series of bulletins on current issues of legislative concern issued by LRS, and in 1951 she became Analyst in National Defense. Promotions occurred in 1952 and 1954, and in 1958 she was moved up to the position of Specialist in National Defense. She was selected for her present assignment in 1966.

As an internationally-known authority on space law, Mrs. Galloway has been extraordinarily active in professional affairs and programs. Elected to the Board of Directors of the International Institute of Space Law of the International Astronautical Federation in 1967, she has frequently been a participant in a number of symposia, conferences, and other meetings in her area of specialization.

In 1973, Mrs. Galloway conducted a seminar on "The Role of Congress in Science and Technology" at the U.S. Civil Service Commission's Executive Seminar Center in Oak Ridge, Tenn. She also was appointed by the U.S. Department of State as Advisor to the U.S. Outer Space Delegation to the United Nations Working Group on Direct Broadcast Satellites, Committee on the Peaceful Uses of Outer Space. In the fall of that year, Mrs. Galloway participated in the 24th Congress of the International Astronautical Federation held in Baku, Azerbaijan, U.S.S.R. She was re-elected Vice President of the International Institute of Space Law for a three-year term in 1973.

This year she has again been invited to join the U.S. Outer Space Delegation to the United Nations concerning remote sensing of the earth by satellite, direct broadcast satellites, the Moon Treaty, and the definition of outer space. She is also a member of the American Institute of Aeronautical and Space Sciences.

Mrs. Galloway has received several outstanding performance ratings while with the Library. In 1968 she was awarded the Andrew Haley Gold Medal for space law research by the International Institute of Space Law.

Warren H. Donnelly, Senior Specialist in Conservation, Senior Specialist Division, Congressional Research Service, received a 30-year Federal Service Award pin from Mr. Jayson on May 2.

Mr. Donnelly, a native of Mt. Vernon, N.Y., studied the physical sciences at Queens College where he obtained a B.S. degree in 1942. He served with the U.S. Army Air Corps in World War II, and following this service he accepted employment with Tuck Electronics, Inc., a New York City firm, as an engineer. In 1946 he began to work for Western Electric Corporation as an engineer.

He began his Government service in 1948 as Administrative Officer for the Health and Safety Laboratory of the U.S. Atomic Energy Commission in New York City. While working there he also undertook graduate study at New York University that led to a Master of Public Administration degree in 1953 and a Ph. D. degree in 1962. Holding progressively more responsible positions with the Commission during this period, he was involved with contract administration from 1954 to 1958, becoming Deputy Director of the New York Office's Contracts Division, and from 1958 to 1963 he was Director of the Technical Services Division. In 1963 he transferred to the Commission's Washington facility and worked as Technology Utilization Officer with the Division of Industrial Participation.

Mr. Donnelly became a member of the CRS Science Policy Research Division staff in 1965 as a Specialist in Science and Technology. In 1968 he was promoted to the position of Specialist in Government Science Policy Administration in the same division, and in 1973 he was promoted to his present position. Since joining the CRS staff, Mr. Donnelly has continually worked in the field of energy, beginning with nuclear energy problems and progressively turning to other fuel sources and their environmental effects and technological development. He has established himself as a leading legislative and technical expert in the resources field.

Active in professional affairs, Mr. Donnelly is a member of the American Association for the Advancement of Science and the American Society for Public Administration. He is the author of a number of reports and has served as speaker and panelist at numerous scientific and technical meetings. He most recently was named a member of a Steering Committee to assist the Atomic Energy Commission to arrange for cooperative exchange of information between the United States and the Soviet Union on heat rejection systems. He has also served on the staff

of the Graduate School of the U.S. Department of Agriculture, teaching courses in public policy for science and technology.

Peter Henle, Senior Specialist in Labor, Senior Specialists Division, Congressional Research Service, was presented a 20-year Federal Service Award pin by Mr. Jayson, on May 2.

Mr. Henle received a B.A. degree in economics from Swarthmore College in 1940 and an M.A. degree in economics from American University in 1947. Associated for 15 years with the American Federation of Labor and later the merged AFL-CIO, Mr. Henle served from 1955 to 1961 as Assistant Director of Research for the organization. In 1961 he went to the U.S. Department of Labor, serving as Chief Economist and Associate Commissioner of Labor Statistics in the Bureau of Labor Statistics from 1966 to 1971. In this capacity he was responsible for the Bureau's programs of economic analysis, program planning and evaluation, and foreign labor conditions. From 1971 to 1972, Mr. Henle was a Federal Executive Fellow of the Brookings Institution, on leave from his position as Economic Advisor to the Secretary of Labor. During this time he wrote articles for publication on the operations of public and private retirement systems, the effectiveness of collective bargaining, and recent trends in the distribution of earned income.

In October 1972, Mr. Henle was appointed to his present position in CRS.

Mr. Henle has contributed articles to several books, professional journals, and the *Encyclopedia of the Social Sciences*. In 1968 he received a Distinguished Achievement Award from the U.S. Department of Labor.

Five employees of the Reference Department received Meritorious Service Awards and cash awards from Acting Librarian of Congress, John G. Lorenz, in ceremonies held in his office on March 31.

Ralph Whittington, General Reference and Bibliography Division, received a Meritorious Service Award and a $200 cash award for his initiative in shifting and reshelving the reference books in the Main

Left: Mr. Lorenz presents awards to Mrs. Dale, Mr. Hogan, and Mr. Willson.

Reading Room alcove collection.

The following employees of the Stack and Reader Division received Meritorious Service Awards: **Gary Chandler** was commended for his suggestion that copies of the "Functions of the Employee Relations Office" be given to new employees. Tour Office staff members **Joan Dale, William Hogan,** and **Brian Willson,** Tour Coordinator, were commended for the high level of excellence maintained in the performance of their duties over the past several years. Mr. Lorenz commended them for exercising "imagination and judgment in adapting tours to meet the interests and needs of visitors to the Library particularly during the IFLA Conference during November 1974."

STAFF ACTIVITY

Francis J. Scott, D. Lee Power, and **Michael P. Fitzgerald,** Information Systems Office, are joint authors of a paper contributed to the third annual Computer Science Conference, sponsored by the Association for Computing Machinery, held in Washington, D.C., on February 19.

Mr. Scott described the current status and planned development of SCORPIO, an on-line system used by the Congressional Research Service and the Reference Department for retrieval of bibliographic and legislative information. SCORPIO, developed by the Information Systems Office and featuring Boolean logic for searching flexibility, supports a number of machine-readable files. A *User's Guide to SCORPIO* is available from the Information System Office, Library of Congress, Washington, D.C. 20540.

PERSONNEL CHANGES

Mary Jack Wintle Named Assistant Chief, DBPH

Mary Jack Wintle, an experienced special library administrator, has been appointed Assistant Chief of the Division for the Blind and Physically Handicapped, effective May 12. She succeeds Charles Gallozzi, who retired on May 11, after serving in the position for 17 years.

As Assistant Chief, Miss Wintle is responsible for the day-to-day operation of the division and for the coordination of a national network of 54 cooperating regional libraries, 90 subregional libraries, a large number of machine-lending agencies, book and playback equipment manufacturers, and a corps of numerous volunteers. The network is the only nationwide program providing complete library service to eligible blind and physically handicapped individuals of all ages in the United States and its territories and U.S. citizens temporarily living abroad. She is also responsible for planning new program activities and working with states to establish new library outlets for the special library services. Braille and recorded books and magazines and playback equipment are being made available at no cost to over 400,000 eligible readers through the program.

In 12 years of experience in the field, she has assumed increasingly greater responsibility in each new assignment. She became a member of the Library of Congress staff in 1962 as a special recruit in the Library's annual training program for outstanding library school graduates. In March 1963, she became head of the regional library then in the former Division for the Blind (the name of which was changed to add the handicapped following the passage of legislation by Congress in 1966 to include those in that group who, like the blind, are unable to read ordinary printed materials).

From 1964 to 1969, serving successively as Assistant then as Selection and Publications Officer, Miss Wintle had a major responsibility for implementing selection policies and for planning publications for readers. She then became Assistant Chief for Materials Development (formerly Assistant Chief for Acquisitions), the position she has held since that time. She was responsible for coordinating the work of several sections engaged in acquiring and distributing braille and recorded reading materials and playback equipment.

Miss Wintle began her library career as a trainee at Louisiana State University Library while pursuing graduate study. She completed undergraduate study at LSU (B.A., 1956) and returned there for further study (M.L.S., 1962) after receiving an M.A. in English Education at Yale University in 1957. Before entering the library field, she taught high school English in Pennsylvania and worked as a legal secretary in Louisiana.

Active in civic and professional affairs, she is affiliated with the Special Libraries Association, the D.C. Library Association, the Association for Educational Communications and Technology, and Beta Phi Mu. Her involvement in service organizations led the Library of Congress Federal Women's Program Committee to select her as representative of women employees in such endeavors during April 1975, in observance of International Women's Year.

It was in the Junior League of Shreveport, La., that she first developed an interest in work with the blind and took a course to learn braille transcribing. She

now is a member of the Junior League of Washington, Audubon Naturalist Society, and International Toastmistress. Other of her activities are or have been tutoring of children and volunteer work with the Women's Legal Defense Fund.

She and her husband, James W. Longest of the University of Maryland faculty, make their home in suburban University Park.

Appointments: David Foulkes, assistant programmer, GS-7, ISO, 7610; Diane Goad, research analyst, GS-5, FRD, 7665; Andrew Holcomb, reading room assistant, GS-2, S&R, OP 6-600; Mary McSwain, clerk-typist, GS-2, Place & Class, OP 19-100; Zachary Pierce, reading room assistant, GS-2, S&R, OP 5-600; Angela Tomko, library technician, GS-5, Ser Rec, 7674.

Temporary Appointment: Bertha Smith, braille production assistant, GS-5, DBPH, NP.

Reappointments: Edward Bailey, master files assistant, GS-3, CRS L, 7647; Mary Jane Bolle, analyst in labor economics and relations, GS-11, CRS E, 7702; James Karafa, general laborer, Bldgs, NP; Susan Kistler, searcher filer, GS-5, Cat Publ, 7582; Torrence Lindsay, general laborer, Bldgs, NP; Patricia Woodruff, clerk-typist, GS-3, Cat Distri, OP 12-500.

Resignations: William Bates, DBPH; Stephen Gray, Cop Exam; James Hanavan, Cop Exam; Carla Johnson, Share Cat; Cornelia Ladd, CRS GGR; Laura E. Newson, E&G; Josephine Reynolds, Ref; Ruth Rowan, CRS E; Cathy Turner, P&S.

ANNOUNCEMENT

Stella M. Simms and **Clinton Ricks** were married on May 3. Mrs. Ricks is a member of the staff of the Law Shelflisting Unit, Subject Cataloging Division, and Mr. Ricks is employed in the Office of the Mayor of the District of Columbia.

LIBRARY OF CONGRESS PUBLICATIONS

Notice: The Library of Congress office in New Delhi, India, has made a number of changes, chiefly to regularize the publication schedules for the various accessions lists which it compiles and distributes on a complimentary basis. Recipients are asked to note the following:

Accessions List: India. For the first half of 1975 two quarterly issues will be published, January-March and April-June. In July it will resume monthly publication. The Annual Supplement Cumulative List of Serials for 1975 should reach subscribers in early 1976, and the Cumulative Author & Subject Indexes by April 1976.

Accessions List: Bangladesh. For 1975 two semiannual issues will appear, one in June and the other in December. The December issue will also contain the Cumulative List of Serials and Annual Author & Subject Indexes for 1975.

Accessions List: Nepal. Formerly published in April and October, this will now appear in June and December. The December number will contain the Cumulative List of Serials and Annual Author & Subject Indexes.

Accessions List: Sri Lanka. Formerly published in February and August, this will now appear in June and December. The December issue will also contain the Cumulative List of Serials and Annual Author & Subject Indexes. The February and August issues for 1974 have recently been published as a combined issue and should reach subscribers by May 1975.

Recipients should also note that the lists are shipped by international surface mail to their foreign destinations, and usually are three to five months in transit. This time lag should be taken into account when making claims for issues not received.

Library of Congress Catalogs: Chinese Cooperative Catalog. ISSN 0095-1072. March 1975. Part I, A-K (123 p.) and Part 2, L-Y (119 p.). For sale by the Cataloging Distribution Service Division, Library of Congress, Washington, D.C. 20541, for $155 a year.

Selected Information Resources on Meteorology (SL 72-23). Revised April 1975. (11 p.) Compiled by the Science and Technology Division's National Referral Center, this informal listing of 41 organizations which will answer questions or provide informative materials on meteorology is a complete revision of a listing first issued in November 1972. Each entry gives the name, address, and telephone number of an organization and a brief description of the information services that it provides. Free on request from the Library of Congress, National Referral Center, Science and Technology Division, Washington, D.C. 20540.

Cooperative Publication Projects: *The National Union Catalog: Pre-1956 Imprints. A Cumulative Author List Representing Library of Congress Printed Cards and Titles Reported by Other American Libraries.* Vols. 375-379; Melvill, Henry-Mexico. Laws, Statutes. Compiled and edited with the cooperation of the Library of Congress and the National Union Catalog Subcommittee of the Resources Committee of the Resources and Technical Services Division, American Library Association. For sale by Mansell

Information/Publishing Ltd., 3 Bloomsbury Place, London WC1A 2QA, England, about $25-$30 each depending on the mode of payment. Particulars are available from the publisher.

Library of Congress Regulations: No. 2013-18 (May 1) concerned overtime pay under the Fair Labor Standards Act of 1974; No. 2017-5 (May 2) described obligations of management and staff to assure fulfillment of quality and quantity requirements of all positions; Nos. 3030-1, 2020-2, 2020-3, 2020-4 (May 7) revised regulations on grievances, adverse actions, appeals, and hearing procedures; No. 1818-4.1 (May 8) page 1, concerned parking.

Special Announcements: No. 685 (April 25) gave the current schedule for submission of annual reports; No. 686 (April 25) announced the appointment of Robert D. Stevens as Chief of the Cataloging Division, Copyright Office; No. 687 (April 29) reported the appointment of Linda R. Gainer as Federal Women's Program Coordinator; No. 688 (April 29) concerned the Tuition Support Program; No. 689 (May 1) listed staff members participating in the 1975 Savings Bond campaign; No. 690 (May 5) listed current Equal Opportunity Counselors; No. 691 (May 6) announced the Memorial Day holiday schedule.

Press Releases: No. 75-30 (May 1) LC Poetry Consultant Stanley Kunitz to Give Closing Lecture of 1974-75 Literary Season; No. 75-31 (May 2) LC Holds Fourth Symposium on Impact of American Revolution Abroad May 8-9; No. 75-32 (May 5) Third Conference on Resolution of Copyright Issues Considers Library Photocopying Problem; No. 75-33 (May 8) Dutch Historian Describes Impact of American Revolution on Dutch Republic in LC Symposium on the American Revolution; No. 75-34 (May 8) British Historian Lectures on Impact of American Revolution on Great Britain during LC American Revolution Symposium; 75-35 (May 8) French Historian Claude Fohlen Discusses Impact of American Revolution on France in LC Symposium; 75-36 (May 8) Reaction in Hispanic World to the American Stuggle for Independence Presented in LC Symposium on the American Revolution.

NEWS IN THE LIBRARY WORLD

COMING EVENTS

First day of issue ceremonies for a commemorative stamp honoring motion picture pioneer **D. W. Griffith** will be held in Beverly Hills on Tuesday, May 27, at the American Film Institute's Center for Advanced Film Studies at Greystone. Participants in the ceremony will include Gregory Peck, founding Chairman of the American Film Institute's Board of Trustees, and actress Lillian Gish. AFI Director George Stevens, Jr., and AFI-West Director Martin Manulis will be host to speaker Benjamin F. Bailar, the Postmaster General, who will officially dedicate the first stamp. A selection of scenes from Griffith classics, including "Intolerance," "Broken Blossoms," and "Way Down East," will be shown following the ceremony.

The 10-cent Griffith stamp will be on sale on the first day of issue in Beverly Hills only. It will be available the following day in post offices throughout the country.

A two-day workshop on "Library Design for Service" will be part of this year's **Canadian Library Association** Conference in Toronto on June 13-20. The workshop will focus on the development of standards for library furnishings and on identification of major common problems in library design; it will draw on the experiences of librarians, planners, and architects from across Canada. Workshop sessions will take place at Ryerson Polytechnical Institute. Further information is available from John North, Ryerson Polytechnical Institute, tel. (416) 595-5322, or Judith A. Kerr, Canadian Library Association, 151 Sparks St., Ottawa, Ontario K1P 5E3, tel. (613) 232-9625.

"Issues in Federal Librarianship" will be the theme of a preconference sponsored by the **Armed Forces Librarians Section**, the **Federal Librarians Round Table**, and the **Federal Librarians Association** at the ALA Annual Conference on Saturday, June 28. Designed to identify new developments in the areas of automation, career management, continuing education, and other areas relevant to Federal librarianship, the workshop will be limited to 200 participants. The registration fee is $35, with checks made payable to ALA. Letters of registration should be directed to Gerald M. Born, Executive Secretary, Public Library Association, 50 E. Huron St., Chicago, Ill. 60611.

APPOINTMENTS

Margaret E. Chisholm, Dean of the College of Library and Information Services at the University of Maryland, will be leaving that institution following the end of the present academic term in order to accept an appointment as Vice President of the University of Washington, Seattle, and as Professor in the School of Librarianship. She is the first woman to be named a Vice President of the University of Washington.

Helen Freiser has been named Editor, Adult Books, of *Booklist*, the ALA buying guide to books and non-

print media for public libraries and school media centers. A reviewer of books for adults for *Booklist* since 1973, Mrs. Freiser received her bachelor's degree from Brooklyn College and her master's degree in library science from Columbia University. She worked at the Brooklyn Public Library and in magazine editing before joining the *Booklist* staff.

The National Endowment for the Arts has named **Harold Horowitz** its first full-time Director of Research for the Endowment. His appointment was effective April 28.

Mr. Horowitz will plan, coordinate, monitor, and evaluate art research activities of the Endowment, and will also cooperate closely with other public and private organizations doing arts research. In 1969, Mr. Horowitz served on the Endowment's Environmental Arts Panel, an advisory group.

His last positions have been with the Energy Research and Development Administration and the National Science Foundation. He holds bachelor's and master's degrees in architecture from the Illinois Institute of Technology's Institute of Design and from the Massachusetts Institute of Technology, respectively.

The Board of Directors of the Canadian Library Association has announced the appointment of **Paul Kitchen** of the Canadian National Library as Executive Director of CLA effective June 1. Mr. Kitchen replaces Bernard McNamee, Executive Director since 1972.

As Government Libraries Liaison Officer for the National Library since 1972, Mr. Kitchen has worked with over 200 federal libraries in an attempt to organize an integrated network of federal libraries across Canada. He was Project Coordinator for the Federal Government Library Survey, 1972-73. He holds a bachelor's degree from Carleton University and a library science degree from the University of British Columbia.

The membership of the Canadian Library Association, which numbers 4,000, stretches throughout North America and overseas.

Roderick G. Swartz has been named Washington State Librarian, effective November 1. Currently on a Fulbright grant lecturing on library and information science at the University of Tampere, Finland, Mr. Swartz served as Deputy Director of the National Commission on Libraries and Information Science, Washington, D.C., from 1972 until December 1974. He holds bachelor's and master's degrees in history from the University of Nebraska and a master's degree in library science from the University of Chicago. Before joining the staff of NCLIS, Mr. Swartz was with the Tulsa (Okla.) Library System.

ANNOUNCEMENTS

The libraries of the University of California, the California State University and Colleges, the Association of Independent California Colleges and Universities, the California State Library, and of certain city, county, and community colleges are in the process of forming a library consortium to be known as **CLASS**, the California Library Authority for Systems and Services. CLASS will encourage and support cooperative technical development; provide for shared development and maintenance of common bibliographic data bases; develop improved interlibrary loan and delivery systems; and support shared ventures in the use of cataloging data, selective acquisitions, and other forms of resources sharing. Further information about the consortium is available from the California State Library, P.O. Box 2037, Sacramento, Calif. 95809.

DEVSIS Newsletter No. 1, issued last month, contains an account of **DEVSIS**, a proposal for an international information system in the field of economic and social development that was endorsed by representatives of 28 national and international organizations at a meeting in Ottawa last June. Three papers about DEVSIS are summarized in the first newsletter.

The sponsors of the DEVSIS study are the International Development Research Centre, the International Labour Office, the Organisation for Economic Co-operation and Development, the United Nations Development Programme, and UNESCO. The DEVSIS Study Team may be reached care of the International Labout Office, 1211 Geneva 22, Switzerland.

APPENDIX

Vol. 34, No. 21 May 23, 1975

REPORTS ON THE 27TH ANNUAL MEETING OF THE ASSOCIATION FOR ASIAN STUDIES
San Francisco, Calif., March 24-26, 1975

[Editor's Note: The following reports were prepared by Samuel Iftikhar, Key Kobayashi, and Chi Wang of the Orientalia Division; Gloria H. Hsia, Chief of the Catalog Publications Division; and Tao-tai Hsia, Chief of the Far Eastern Law Division.]

PANEL PRESENTATIONS

The 27th annual meeting of the Association for Asian Studies, which was held in San Francisco March 24-26, featured two panels of special interest to librarians.

Three papers were presented at the first panel, "Chinese Library Resources in East Asia," describing East Asian library collections important to the study of China. The panel was organized and chaired by Antony Marr, East Asian Collection, Yale University. Chi Wang, Chinese and Korean Section, Orientalia Division, Library of Congress, presented a paper on "Libraries in the People's Republic of China and Hong Kong." His account of the current status of key libraries and their development during the past 25 years was based primarily on visits to Chinese libraries during 1972 and 1974 and on firsthand experience with libraries in Hong Kong during 1970-72. In the second paper, "Libraries in Taiwan and Their Importance for Chinese Studies," Ramon H. Myers, University of Miami, described a number of major institutions, libraries, and archives containing important historical materials on China and Southeast Asia. The third paper, "Japanese Library Resources on Republican China," by David Tsai, University of Chicago, concentrated on the major repositories of Chinese government publications found in Japan. The panel discussant, Eugene Wu, Harvard-Yenching Library, Harvard University, discussed the problems of access to libraries by American scholars.

Four papers were presented at the second panel, "Workshop: American Documentary Sources for the Occupation of Japan, 1943-1952," dealing with the collections of documents in the National Archives, in other American repositories, and in private collections. The panel was organized and chaired by Dale M. Hellegers, Columbia University. D. Clayton James, Mississippi State University, spoke on "Touring the Hinterlands: Occupation Sources Outside Official Washington." Milton O. Gustafson, Diplomatic Branch, National Archives, described sources relating to "The State Department and the Occupation of Japan: Pre-Surrender Planning and Post-Defeat Policy." William H. Cunliffe, Modern Military Branch, National Archives, concentrated on documents relating to "Military Planning and Policy for the Occupation of Japan." James J. Hastings, General Archives Division, Washington National Records Center, outlined problems concerning documents produced by the Supreme Commander for the Allied Powers in his paper "MacArthur's Revenge: A Guide to the Operating Files of GHQ, SCAP."

COMMITTEE ON EAST ASIAN LIBRARIES

At the March 23 meeting of the Committee, Gloria H. Hsia, Chief, Catalog Publication Division, representing the Library of Congress, surveyed the significant progress of the Library's programs in acquisition, cataloging, card printing, and subject analysis of Far Eastern materials. She cited the National Program for Acquisitions and Cataloging Chinese/Korean Searching Project as one effort on the part of the Library to improve acquisition and cataloging. In addition, Mrs. Hsia distributed a statistical analysis of the first three issues of the *Chinese Cooperative Catalog* and explained the progress of this new LC publication.

At a brief question-and-answer session committee members raised questions on such matters as the statistical analysis of the *Chinese Cooperative Catalog*, the responsibility for searching entries for the catalog, and the possible duplication of entries in successive issues.

Thanking the librarians for their cooperation and support in publishing the *Chinese Cooperative Catalog*, currently being issued on a monthly basis, Mrs. Hsia urged CEAL members to support an annual cumulation of the *CCC* in order to preserve its usefulness to subscribers. She affirmed that the Library will continue its efforts to provide better access to Far Eastern materials and better service to the East Asian libraries. The *Chinese Cooperative Catalog* is just one step toward the Library's long-range goal of total bibliographic control of East Asian materials.

SUBCOMMITTEE ON LIAISON WITH CHINESE LIBRARIES

Subcommittee Chairman Tao-tai Hsia, Chief of the Far Eastern Law Division, Library of Congress, reported on the Subcommittee's joint effort with the Committee on East Asian Libraries (CEAL) to arrange a visit to the People's Republic of China of a delegation of CEAL members. Mr. Hsia said that letters were sent last November 13 to Ch'ai Tse-min, President of the Chinese People's Association for Friendship with Foreign Countries, and to Pao Cheng-ku, Deputy Director of the National Peking Library. In a reply dated last December 20, an official of the Chinese People's Association for Friendship with Foreign Countries expressed regret that facilities available at the present time would not allow receiving a CEAL delegation. On December 23, Deputy Director Pao indicated that he had brought the correspondence to the attention of the Chinese People's Association for Friendship with Foreign Countries. Mr. Hsai reported that the Subcommittee will initiate another round of correspondence when it is believed the time is appropriate.

Mr. Hsia referred inquiries about the Library of Congress' efforts in organizing a delegation of American librarians for a visit to China to Warren M. Tsuneishi, Chief of the LC Orientalia Division.

FIFTH PUNJAB STUDIES CONFERENCE RESEARCH COMMITTEE OF THE PUNJAB

Samuel Iftikhar of the LC Southern Asia Section, Orientalia Division, presented a paper at the Conference which was held in Berkeley, Calif., March 21-23, prior to the annual meeting of the Association for Asian Studies. Mr. Iftikhar's paper, "Pragmatic Elements in the Philosophy of Muhammad Iqbal," dealt with the thought of the man who headed the All-India Muslim League, one of the two major political parties of India during the 1930's.

The conference was sponsored jointly by the Graduate Theological Union, Berkeley, the Sikh Foundation, and the Center for South and Southeast Asia Studies at the University of California at Berkeley. American, Asian, and Canadian scholars presented 18 papers devoted to the politics, economics, sociology, and literature of the Indo-Pakistani region.
